Baby training (fully funded)

Fully funded online training sessions coming up in March for professionals in the Merseyside authorities.

They're funded by the Merseyside Violence Reduction Partnership and will be delivered on Zoom.

I've been working with Sefton authority recently and have delivered for them a session which is called *Books with Babies* that follows on from the earlier training. This current offer includes this session.

There's also a session which provides more of an overview relating to reading from the womb to age 1.

Professionals can choose from which is most suited to their needs.

Monday 25th March 9.30-11.30: **Read to Bump:**

When to use the Multi-agency Resolution procedure...

All professionals across the borough working with children, young people and families need to know what to do about a case where they are **worries that professionals are not working well together and as a result a child is not making good enough progress or is at risk.**

The multi-agency resolution procedure is also the most appropriate procedure for practitioners to escalate concerns regarding an agencies non-attendance at meetings.

Please see attached briefing that relates to changes in the multi-agency resolution policy.

Please can I request that the attached briefing is circulated and practitioners are aware of the **changes in relation to Stage 1 & Stage 2.**

New resources to support supervised toothbrushing programmes and tackle tooth decay

Tooth decay remains very common in young children especially in those living in deprived areas. Tooth decay can be very painful, cause problems eating/sleeping and stop children attending early years settings.

There is a requirement within the Early Years Foundation Stage to promote good oral health to children and supervised toothbrushing programmes are an effective way to do this.

To make sure more children get to benefit from taking part in supervised toothbrushing programmes a new website has been developed, as part of a national research project, to include resources needed by all those involved in getting toothbrushing programmes set-up and running well:
